

UDDENSKULPTUR 2024

OPEN CALL

Udden, the stone quarry in Hunnebostrand, is an optimal location for the exhibition of sculptures.

The site's historic significance with quarrying and processing of stone and the vertical rock opposing the sea that stretches to the horizon in the West is a perfect setting. This vertical wall of granite cannot be found at any other exhibition space, and makes the peninsula unique in the world. Please feel free to visit www.uddenskulptur.se

After thirteen years of superb exhibitions we now continue with Uddenskulptur 2024, and for this upcoming exhibition we announce this Open Call.

We are looking for work, preferably in stone, suitable for this space. If you are interested, please send us some representative images and a brief description of your work by e-mail to open_call_2024@uddenskulptur.se. Make sure you mention title, value (in €), an estimate of the weight and measurements and also the current location of this work.

Our timeline.

- > **1-1-2024** Please return your proposal before this date to **open_call_2024@uddenskulptur.se**
